

Zoning

Standard Home w/ Single System

No Zoning

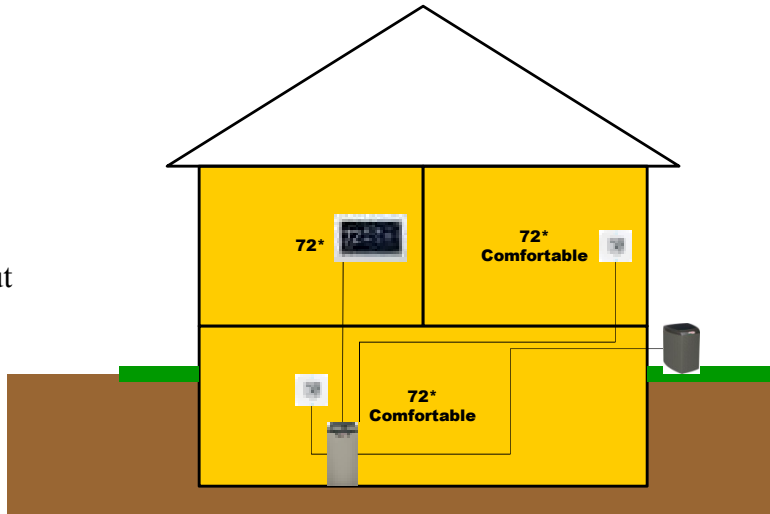

- Standard home w/ 1 Zone, and 1 thermostat for entire home. 1 Supply trunk.
- Difficult to maintain comfortably consistent temperatures through- out entire home.

With Zoning – 2-4 zones

- Standard home w/ up to 4 Zones for entire home, 1 thermostat for each zone.

-Able to maintain comfortably consistent temperatures throughout entire home, as needed.

- Requires 2-stage or modulating Heating & Cooling Equipment !!

EX.

1200 (cfm) Buckets of Air – OK

1200 (cfm) Buckets of Air – NOT OK

The Furnace & A/C **MUST** be able to reduce in capacity, because the duct capacity is reduced with zoning.
